COUNTY NEEDS ASSESSMENT FY 2020-2021

Appendix: Sealed Records by Year.....21

Youth Level

- Table 1: Despite being a smaller community, Banner County has a higher Hispanic community. Interesting that there are more Hispanic females (but this is only 8 or so women.)
- Table 2-3: Chronic absenteeism – Banner County's number were too small to report. However, across the state we are finding that minority youth often have high rates of chronic absenteeism.
- Table 4: Free and reduced lunch is consistently higher than the rest of the state.
- Table 5: HS graduation rates are almost identical to the state average – 88.5% of your students graduate!
- Table 6: Banner County may want to participate in the Nebraska Risk and Protective Factors Survey. This tool provides good information on binge drinking, drug use, depression, suicide ideation, etc. and often provides guidance for juvenile justice interventions.
- Table 11: Data was not available about gang involvement
- Table 12: Overall crime decreased by 47.22% from 2018 to 2019, and almost no juvenile crimes reported (only 1?).
- Table 13. A statewide tool is on the horizon. A validated tool can help design interventions (using the 8 domains).
- Table 14: Only 4 youth had a law violation reported to NCC, but some police departments did not report.

Policy, Legal and System Level

Table 22: “No juvenile court cases” as reported by Kids Count. However, if there are juvenile cases, team members may want to look into whether youth received court appointed counsel.

Table 24: Absenteeism and truancy are lower level cases that could be diverted from court system, (52 filing overall, declining since 2017).

Table 25: With respect to diversion practices, the community may want to consider a few things:

- Allowing warning letters for the lowest risk youth
- Comparing diversion fees to court costs so they are comparable. With a higher proportion of children <18 in poverty, perhaps offering scholarships.
- Establish a sealing process

Neb. Rev. 43-272. Right to counsel; appointment; payment; guardian ad litem; appointment; when; duties; standards for guardians ad litem; standards for attorneys who practice in juvenile court.

(1)(a) In counties having a population of less than one hundred fifty thousand inhabitants, when any juvenile shall be brought without counsel before a juvenile court, the court shall advise such juvenile and his or her parent or guardian of their right to retain counsel and shall inquire of such juvenile and his or her parent or guardian as to whether they desire to retain counsel.

(b) In counties having a population of one hundred fifty thousand or more inhabitants, when any juvenile court petition is filed alleging jurisdiction of a juvenile pursuant to subdivision (1), (2), (3)(b), or (4) of section 43-247, counsel shall be appointed for such juvenile.

*responses included 44 juvenile diversion programs; representing 68 counties/tribe (91.9% response rate)

Community Team Level

- Table 26-27: A community lead should be able to get roughly a 75% response, to ensure active participation on planning issues, your response rate was quite low, at 11.7%. However, this is likely because it went to a very large team of 137. The sixteen people that responded gave the team good scores on collective impact.
- Table 28: It might be beneficial to add diversity to your team.
 - Very few younger people on the team (perhaps did not reply to the survey).
 - Need diverse representation (especially because of the patterns of over and under representation.) You may have Black and Hispanic community members on your team, perhaps they didn't take the survey.
 - Are probation, law enforcement, county attorney and defense counsel on your teams?
 - Good representation of persons formerly involved in the system.
 - Roughly 25% of your team reported not feeling heard, but that is likely not representative – due to low response rate.

The five elements of Collective Impact are:

- **Common agenda:** Participants have a shared vision and common understanding of both the problem and potential solutions to that problem.
- **Mutually reinforcing activities:** Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.
- **Shared measurement:** Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
- **Continuous communication:** Consistent and open communication is needed across stakeholders to build trust, assure mutual objectives, and create common motivation.
- **Backbone support:** Creating and managing Collective Impact often requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and to coordinate participating organizations ⁹
