Appendix: Sealed Court Records by Year	21

Youth Level

- Hispanic youth are over-represented in chronic absenteeism compared to the school population (but not the county Census data). Other race/ethnicities are too small to include.
- English proficiency is higher than the state average across all years but shows a potential declining trend.
- Free and reduced lunch is higher than the state average and appears to have increased.
- Graduation rates are higher than the state average, and the county is ranked 53 of 93.
- This community has not participated in the NRPFS and should consider participating in the next survey year (2021) to get youth-level data on mental health, gangs, supportive adults and community perceptions of substance use.
- There is very little crime in this county for all ages, and none for juveniles.
- JJI did not have risk assessment scores for diversion from the 2015-2017 assessment evaluation to include. If the county is not using a validated assessment tool, then it should begin doing so (there will be a statewide tool coming in July 2021). If the county does have assessment data in digital format for JJI to analyze, we would be happy to update this table.
- More youth are put on probation (8) than referred to diversion (6). Best practices is to divert more youth than put youth on probation.
- Black youth are over-represented in diversion referrals. Unfortunately, we do not have law enforcement data by race/ethnicity to assess whether this is proportional to the rate of law enforcement stops. Hispanic youth are over-represented in probation. Once they are referred, they enroll and are successful at a rate that matches their representation in the county.
- Hispanic youth are over-represented for probation intakes and for being on probation.
- Data for race and ethnicity is missing for the courts. Reliable data is necessary to do a RED analysis. The team should work to improve data collection/entry of race and ethnicity.

Family Level

- Poverty for all children < 18 does not appear to be a problem, but according to the measure of children 12-17 below 185% poverty, this county does have an issue with poverty.
- Fewer residents aged 25 and older have a bachelor's degree, but this is not uncommon in rural areas.
- There are fewer youth with technology and computers in the home, which could be problematic for things like remote learning (that has become relevant in 2020).
- Domestic violence and child abuse reports do not appear to be an issue in this county.

Table 15.

Poverty/SES, Educational Attainment, Technology and Computers in Home, Housing, and Transportation (5-year estimates, 2014-2018) ^a

Measurement		Dundy	Nebraska
Poverty/SES	Children <18 in Poverty	14.3%	14.8%

Dundy	12	50%	0%	100%
Nebraska	36,480	33.4%	16.0%	68.3%

Community Level

- Violent crime does not appear to be an issue
- Juvenile record sealing is not “automatic” even if statute requires it to seal. Sealing a record requires administrative staff to initiate the process. Dismissed or dropped cases should be sealed at a rate of 100%. All others should be sealed at the rate to which youth successfully complete their court requirements (completion of diversion, probation, restorative practice, or other treatment). The county has a high rate of sealing cases filed in adult court.
- Data for race and ethnicity at each juvenile justice system point is imperative for an accurate Racial and Ethnic Disparities (RED) analysis.

Table 19. Community Violence Measured by Arrests for Violent Crime (2019) ⁱ

Type of Violence	Dundy	Nebraska
Murder and Nonnegligent manslaughter	--	34
Rape	--	264

Juvenile Court Record Sealing Analysis (2015 – 2019) ^m

see [Appendix for yearly data](#)

	Number of charges Sealed	Total Number of charges	Sealed (%)
Dismissed or Dropped	33	41	80.5%
Offered Diversion, mediation, or RJ	--	--	--
Filed in Juv. Court	10	21	47.6%
Filed in Adult Court (M or I)	6	6	100.0%
Filed in Adult Court and Transferred to Juv. Court	--	--	--
Total	49	68	72.1%

*Cases offered diversion, mediation or RJ are not available data points in in JUSTICE. All cases filed in adult court and transferred to juvenile court overlapped with cases that were filed in adult court as a misdemeanor or infraction; as such, they were omitted from analysis

Policy, Legal and System Level

- This county is not a county required to provide counsel under statute; notably, access to counsel is not as high as the state average but is higher than other counties on this team.
- Curfew violations, 3A, 3B, and 3C offenses are not being filed, so the county is appropriately diverting those cases or they are not an issue.
- A diversion program did not complete the diversion survey so we are unable to provide information for this county.

Table 22. Percent of Youth in Juvenile Court Who Had Access to Counsel (2018) ⁿ

	Dundy	Nebraska
Access to Counsel	60.0 -- 79.9%	73.5%

Neb. Rev. 43-272. Right to counsel; appointment; payment; guardian ad litem; appointment; when; duties; standards for guardians ad litem; standards for attorneys who practice in juvenile court.

(1)(a) In counties having a population of less than one hundred fifty thousand inhabitants, when any juvenile shall be brought without counsel before a juvenile court, the court shall advise such juvenile and his or her parent or guardian of their right to retain counsel and shall inquire of such juvenile and his or her parent or guardian as to whether they desire to retain counsel.

(b) In counties having a population of one hundred fifty thousand or more inhabitants, when any juvenile court petition is filed alleging jurisdiction of a juvenile pursuant to subdivision (1), (2), (3)(b), or (4) of section [43-247](#), counsel shall be appointed for such juvenile.

Use of graduated responses prior to discharge	Did not complete survey	Yes: 47.7% No: 25.0% Not sure: 27.3%
Sealing diversion records	Did not complete survey	Yes: 59.1% No: 22.7% Not sure: 18.2%

*responses included 44 juvenile diversion programs; representing 68 counties/tribe (91.9% response rate)

Community Team Level

- A community lead should be able to get roughly a 75% response, to ensure active participation on planning issues.
- The response rate for the collective impact survey decreased from 2019 to 2020 – and no one completed the survey. The measures of collective impact are lower than the state average and other community teams. The county should work on strengthening the community team, which will benefit youth in the community.
- Backbone agency and shared measurement (see definitions below) are the lowest and may be the best place to begin strengthening the team.
- With no survey responses, we cannot make conclusions about the diversion of the team. The community team should be representative of the population of that community but should also include diversity.

Table 26. Collective Impact Survey Response Rates ^P

Year of survey	Southwest Team		Nebraska	
	2019	2020	2019	2020
	Mean Score		Mean Score	
Common agenda	5.42	--	5.29	5.69
Mutually reinforcing	5.26	--	5.37	5.50
Shared measurement	5.07	--	5.21	5.45
Continuous communication	5.19	--	5.49	5.55
Backbone agency	4.77	--	5.52	5.78

COUNTY NEEDS ASSESSMENT FY 2020-2021

The five elements of Collective Impact are:

- **Common agenda:** Participants have a shared vision and common understanding of both the problem and potential solutions to that problem.
- **Mutually reinforcing activities:** Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.
- **Shared measurement:** Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
- **Continuous communication:** Consistent and open communication is needed across stakeholders to build trust, assure mutual objectives, and create common motivation.
- **Backbone support:** Creating and managing Collective Impact often requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and to coordinate participating organizations ^q
