Appendix: Sealed Court Records by Year	21

Youth Level

- While we could not get race/ethnicity data for chronic absenteeism in this community because the frequency was too low to report, Hispanic, Native American, and Black youth are over-represented statewide in chronic absenteeism.
- More youth have IDEA plans than the state comparison across all years.
- While lower than the state average, Harlan County has seen an increase in youth receiving free/reduced lunch in recent years.
- This community has not participated in the NRPFSS and should consider participating in the next survey year (2020) to get youth-level data on mental health, gangs, supportive adults and community perceptions of substance use.
- Arrests for all ages are down between 2018-2019
- JJI did not have risk assessment scores for diversion from the 2015-2017 assessment evaluation to include. If the county is not using a validated assessment tool, then it should begin doing so (therewill be a statewide tool coming in July 2021). If the county does have assessment data in digital format for JJI to analyze, we would be happy to update this table.
- Law enforcement data by race and ethnicity would be very beneficial to have a clearer picture of RED; there are a low number of cases to consider at all system points but white youth make up the majority of youth served at all system points.
 - Hispanic youth are overrepresented in both successful closures and revocation of probations

Table 5. Nebraska Public High School 4-Year Graduation Rates by County (5-year estimates, 2015-2019) $^{\circ}$

County	Total in Las	st 5 Years	Yearly Av	verages	Graduation	
	Graduates	Students	Graduates	Graduates Students		Rank
Nebraska	100,111	112,857	20,022.2	22,571.4	88.7%	n/a
Harlan	106	107	21.2	21.4	99.1%	3

Data are only for public school districts and their associated high schools. The figures are aggregated based on the location of the school, not the residential location of the student. The figures for Dawes County are impacted by a vocational school where graduation rates are less than 25%; in the rest of the county graduation rates equal 93%.

Family Level

- Harlan County has a higher rate of poverty compared to the state
- Number of people with bachelor's degrees is lower compared to the state; this could be a result of residents going to college in a different community and not returning to Harlan County.
- 81% of abuse/neglect cases are unfounded.

Table 15.

Community Level

- Juvenile record sealing is not "automatic" even if statute requires it to seal. Sealing a record requires administrative staff to initiate the process. Dismissed or dropped cases should be sealed at a rate of 100%. All others should be sealed at the rate to which youth successfully complete their court requirements (completion of diversion, probation, restorative practice, or other treatment).
- Data for race and ethnicity at each juvenile justice system point is imperative for an accurate Racial and Ethnic Disparities (RED) analysis. The court trial database (JUSTICE) has a high rate of missing data by race/ethnicity in this county.

Table 19.
Community Violence Measured by Arrests for Violent Crime (2019) ^j

Type of Violence	Harlan	Nebraska
Murder and Nonnegligent manslaughter	1	34
Rape	1	264
Robbery	-	367

Table 21.

Juvenile Court Record Sealing Analysis (2015 – 2019) ^m

see Appendix for yearly data

	Number of charges Sealed	Total Number of charges	Sealed (%)
Dismissed or Dropped	21	27	<mark>77.8%</mark>
Offered Diversion, mediation, or RJ			
Filed in Juv. Court	94	140	67.1%
Filed in Adult Court (M or I)	14	14	100.0%
Filed in Adult Court and Transferred to			
Juv. Court			
Total	129	181	71.3%

^{*}Cases offered diversion, mediation or RJ are not available data points in in JUSTICE. All cases filed in adult court and transferred to juvenile court overlapped with cases that were filed in adult court as a misdemeanor or infraction; as such, they were omitted from analysis

Policy, Legal and System Level

- This county is not a county required to provide counsel under statute; however, access to counsel is lower in this community than in the state.
- There are no curfew and few 3A, 3B, and 3C filings in court so the community is diverting appropriately.
- With respect to diversion practices, the community may want to consider a few things:
 - o Not filing all unsuccessful cases, if the youth completed most of the diversion plan
 - Allowing warning letters for the lowest risk youth
 - Comparing diversion fees to court costs so they are comparable. With a higher proportion of children <18 in poverty, perhaps offering scholarships.
 - Having a process for sealing records for youth on diversion with law enforcement and JCMS, as required by statute.

Table 22.

Percent of Youth in Juvenile Court Who Had Access to Counsel (2018) ⁿ

	Harlan	Nebraska
Access to Counsel	40.0% 59.9%	73.5%

<u>Neb. Rev. 43-272</u>. Right to counsel; appointment; payment; guardian ad litem; appointment; when; duties; standards for guardians ad litem; standards for attorneys who practice in juvenile court.

(1)(a) In counties having a population of less than one hundred fifty thousand inhabitants, when any juvenile shall be brought without counsel before a juvenile court, the court shall advise such juvenile and his or her parent or guardian of their right to retain counsel and shall inquire of such juvenile and his or her parent or quardian as to whether they desire to retain counsel.

(b) In counties having a population of one hundred fifty thousand or more inhabitants, when any juvenile court petition is filed alleging jurisdiction of a juvenile pursuant to subdivision (1), (2), (3)(b), or (4) of section 43-247, counsel shall be appointed for such juvenile.

^{*}responses included 44 juvenile diversion programs; representing 68 counties/tribe (91.9% response rate)

Community Team Level

- A community lead should be able to get roughly a 75% response, to ensure active participation on planning issues, your response rate was 57.1%.
 - o This is an increase from 2019's response rate.
- Mean score on Collective Impact is lower than in 2019 and lower than the state average in all areas
- The community team should be representative of the population of that community but should also include diversity. It maybe that the low response rate affected the results of the community team diversity, but if not, it is beneficial to add diverse members to your team.
 - o Good diversity on system points
- Almost half of the responders indicated they did not feel heard on the team.

Mutually reinforcing	5.61	<mark>5.13</mark>	5.37	5.50						
Shared measurement	5.53	<mark>5.31</mark>	5.21	5.45						
Continuous communication	5.89	<mark>5.25</mark>	5.49	5.55						
Backbone agency	6.00	<mark>5.88</mark>	5.52	5.78						

The five elements of Collective Impact are:

- **Common agenda:** Participants have a shared vision and common understanding of both the problem and potential solutions to that problem.
- **Mutually reinforcing activities:** Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.
- **Shared measurement:** Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
- **Continuous communication:** Consistent and open communication is needed across stakeholders to build trust, assure mutual objectives, and create common motivation.
- Backbone support: Creating and managing Collective Impact often requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and to coordinate participating organizations ^q
