# Logging In

- You will need a certificate from the NCC to access the website
- There can be more than one person within an agency with access to the JCMS
  - It is better to have a certificate for each person who needs it than to try to share one certificate
- Certificates are what make the system so secure!

- You are NOT sharing information with police, courts, etc by entering information into the JCMS
- Only people within the same agency and program type can see the data you are entering
