COUNTY NEEDS ASSESSMENT FY 2020-2021

Appendix: Sealed Court Records by Year21

Youth Level

- While we could not get race/ethnicity data for chronic absenteeism in this community because the frequency was too low to report, Hispanic, Native American, and Black youth are over-represented statewide in chronic absenteeism.
- In past years, there were more youth under IDEA in Logan County compared to the state.
- This community has not participated in the NRPFS and should consider participating in the next survey year (2020) to get youth-level data on mental health, gangs, supportive adults and community perceptions of substance use.
- Similar to crime rates generally in the county for all ages, the county juvenile “arrest” rates have decreased from 2018 to 2019. There was an increase in drug violations and DUIs for all ages (however, with such small frequencies, this increase should be taken with caution).
- JJI did not have risk assessment scores for diversion from the 2015-2017 assessment evaluation to include. If the county is not using a validated assessment tool, then it should begin doing so (there will be a statewide tool coming in July 2021). If the county does have assessment data in digital format for JJI to analyze, we would be happy to update this table
- Law enforcement data by race and ethnicity would be very beneficial to have a clearer picture of RED. When compared to school data, white youth are overrepresented in successful probation completion.

The figures for Dawes County are impacted by a vocational school where graduation rates are less than 25%; in the rest of the county graduation rates equal 93%.

Family Level

- Logan County has higher rates of youth below 185% poverty compared to the state.
- Number of adults with bachelor's degrees is lower than the state average; it may be possible that residents who go to college outside of Logan County find employment where they go to school and do not return to Logan County.
- Youth in Logan County have access to computers and internet at home at higher rates than the state (ranked 1st in the state for computers in the home)
- All households have a vehicle available.
- 100% of child abuse and neglect reports were unfounded, however, with such small frequencies, this number should be taken with caution

Community Level

- Juvenile record sealing is not “automatic” even if statute requires it to seal. Sealing a record requires administrative staff to initiate the process. Dismissed or dropped cases should be sealed at a rate of 100%. All others should be sealed at the rate to which youth successfully complete their court requirements (completion of diversion, probation, restorative practice, or other treatment). Yearly data is available in the Appendix to see if the rate has improved because of legislation, but newer cases should naturally have lower rates of sealing than older cases.
- Data for race and ethnicity at each juvenile justice system point is imperative for an accurate Racial and Ethnic Disparities (RED) analysis. The court trial database (JUSTICE) has a high rate of missing data by race/ethnicity in this county.

Policy, Legal and System Level

- There are no juvenile court cases in 2018 to look at access to counsel.
- There are no curfew and 3A, 3B, and 3C filings in court so the community is diverting appropriately or have few citations for these offenses.
- At the time of this needs assessment, Logan County does not have a juvenile diversion program, as such, did not complete the survey.
- With respect to diversion practices, the community may want to consider a few things:
 - Not filing all unsuccessful cases, if the youth completed most of the diversion plan
 - Allowing warning letters for the lowest risk youth
 - Comparing diversion fees to court costs so they are comparable. With a higher proportion of children <18 in poverty, perhaps offering scholarships.
 - Having a process for sealing records for youth on diversion with law enforcement and JCMS, as required by statute.

- Mutually reinforcing activities:** Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.

COUNTY NEEDS ASSESSMENT FY 2020-2021

- **Shared measurement:** Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
- **Continuous communication:** Consistent and open communication is needed across stakeholders to build trust, assure mutual objectives, and create common motivation.
- **Backbone support:** Creating and managing Collective Impact often requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and to coordinate participating organizations ^q
